this book presents a new approach to housing research one that is relevant to all the social sciences housing research is diverse and operates across many disciplines approaches and methods making collaboration difficult this book outlines a methodological framework that enables researchers from many different fields to collaborate in solving complex and seemingly intractable housing problems it shows how we can make progress in housing research and deliver better housing outcomes through an integrated approach drawing on the work of renowned canadian methodologist philosopher theologian and economist bernard lonergan 1904 1984 mcnelis outlines a framework for collaborative research functional collaboration this new form of collaboration divides up the work of housing research into functional specialties these distinguish eight inter related questions that arise in the process of moving from the current housing situation through to providing practical advice to decision makers to answer each question a different method is required making progress in housing is the result of finding new answers to this complete set of eight inter related questions this approach to collaboration opens up a new discourse on method in housing and social research as well as new debates on progress and the nature of science

this is the third environmental performance review of switzerland it evaluates progress towards sustainable development and green growth with a focus on water management and biodiversity conservation and sustainable use

a critical examination of the effects of tax competition policy responses to tax competition provides an in depth exploration of how jurisdictions design taxes on mobile economic factors tax competition between jurisdictions that seek to attract businesses and residents presents both opportunities and challenges it can foster government efficiency and provide a counterweight to lobbying for increased spending but it can also result in inefficiently low tax rates and revenue shortfalls as jurisdictions vie for tax bases this volume examines the economic drivers and consequences of tax competition and presents empirical evidence on its

effects divided into three parts the book first reviews existing research on the determinants and consequences of tax competition and related policy initiatives such as development incentives the second section focuses on specific policies such as the kansas missouri noncompete pact and international measures like the oecd s base erosion and profit shifting initiative that are designed to limit tax competition it also considers the economic responses to these policies the distributional impact of competition reducing policies and potential strategic reactions of other governments the final section presents case studies of the effects of various policies including inter municipal cooperation in france and corporate tax equalization in switzerland altogether this volume provides new insights into the nature of inter jurisdictional tax competition and the range of potential responses available to jurisdictions at various levels in federal systems

this is the first book to focus on international efforts to address syrian chemical weapons issues in an international law context it provides an overview of the process of control over syrian compliance non compliance with international obligations including the keys to success in eliminating syria s stockpiles and reasons for difficulties in handling multiple uses of toxic chemicals as weapons in domestic armed conflicts it also addresses collective and unilateral sanctions against syria outside of international institutional frameworks and their implications for subsequent cases supported by extensive analyses of developments within the opcw executive council and the un security council this book is recommended for readers seeking insight about chemical weapons issues and dynamism of international law

both europe and the us have now dampened the shrillness of the invective hurled against each other over the last years but the underlying differences have not been resolved the two sides drift apart in their views on what internal politics should achieve as well as in their vision of the global order they would like to see established the economies of both europe and the us are highly developed and densely interwoven their societies are post industrial many social and economic trends converge similar too are the challenges to maintain security against threats emanating from other parts of the world divergences thus do not originate from conflicting material interests they arise from different perceptions of the nature and of threats from the outside world from how the two societies wish to define themselves through their internal and external policies the search for a distinct european or

american identity fuels this discord therefore appeals to common merely material interests will not obliterate it the contributions to this book come from altogether twelve authors each of them addressing the issues from the perspective of his or her own discipline the book aims to reach not just academia but also beyond to those that are involved in actual international decision making
